International River Basins”

CC: Mr. Vahagn Tonoyan
Country Water Management Expert,
EU Project “Environmental Protection of
International River Basins” Project

Re: Certificate of acceptance of rehabilitation of Akhuryan-Akhurik hydrological post in
Akhuryan RBD of Armenia

Dear Mr. Turner,

With this letter we certify the successful completion of all works related to rehabilitation of Akhuryan-Akhurik transboundary hydrological post in Akhuryan RBD of Armenia within the EU-funded “Environmental Protection of International River Basins” project.

All construction works are completed pursuant to the requirements of the design drawings and volume of works indicated in the Terms of Reference. The Service of the Hydrometeorology and Active Influence on Atmospheric Phenomena of the Ministry of Emergency Situations of the Republic of Armenia did not identify any need for fix-up works and certifies that the rehabilitated hydrological post is in good condition.

Should you require addition information, please let me know.

Thank you for your continued cooperation.

Sincerely,

Levon Vardanyan
Director
