## Environmental Protection of International River Basins Project

A project implemented by a Consortium  
led by Hulla & Co. Human Dynamics KG

### Pilot project fiche Pilot project 1 in Belarus (PPBY01)

<b>Country</b>	Belarus
<b>Name</b>	<i>Preparation of methodological documentation for WFD compliant monitoring programmes in support of implementation of the 2014 Water Code of the Republic of Belarus</i>
<b>Contact person:</b>	Alexandr Stankevich <a href="mailto:aps_stankevich@mail.ru">aps_stankevich@mail.ru</a>
<b>Budget</b>	15,000 Euro
<b>Timing</b>	10 June 2014 – 30 November 2014
<b>Short description</b>	The existing monitoring system for surface waters in Belarus does not meet the criteria of the WFD, in particular in the area of biological sampling and assessment of hydromorphological parameters for lakes. The objectives of the pilot project is preparation of five methodological monitoring documents, which will support the providing WFD compliant monitoring programmes in Belarus including pilot river Dnieper basin.
<b>Outputs</b>	Inception report First consultation meeting: Second consultation meeting: 5 Final approved methodological documents Final report
