International River Basins Project**

This project is funded by
The European Union

A project implemented by a Consortium
led by Hulla & Co. Human Dynamics KG

**Pilot project fiche
Pilot projects 2, 7 in Moldova (PPMD02,07)**

Country	Republic Moldova
Name	<i>Baseline monitoring and design of WFD compliant surveillance monitoring programme for Lake Beleu Protected Area in the Lower Prut for supporting implementing RBMP in the Prut River Basin (Field survey and Laboratory analyses & report with surveillance monitoring design compliance with WFD and national water legislation)</i>
Contact person:	Victor Bujac victor.bujac@blacksea-riverbasins.net
Budget	24,900 Euro
Timing	7 August 2014 – 19.Sep.16
Short description	<p>The pilot project is divided into three phases:</p> <ol style="list-style-type: none"> 1. Scoping study including an initial pressures and Impacts assessment and design of baseline monitoring programme. The P&I assessment will be conducted in accordance with WFD guidelines. Design of a baseline monitoring programme taking into account the findings of the P&I assessment and covering biological, chemical and hydromorphological parameters. 2. Baseline monitoring (4 seasons) which will include training in monitoring techniques and analyses. Additional survey in 2016 3. Design of WFD compliant surveillance monitoring programme compliant with the WFD. 4. Update design of a baseline monitoring program taking into account the findings of the P&I assessment and covering biological, chemical and hydromorphological parameters and results from previous 4 filed surveys during implementing pilot project in 2014-2015. 5. Perform an additional field survey in spring 2016 due to the fact that the last two field surveys on Beleu Lake could not be complete because of lake’s dryness. 6. Design of WFD compliant surveillance monitoring programme compliant with the WFD and national Water Law nr.272 from 23.12.2011.
Outputs	<ul style="list-style-type: none"> • Inception report • One additional baseline survey April-May 2016 • Updated P&I assessment, report on all 5 surveys • Final report including surveillance monitoring design
